

APPENDIX S PARENTS' BILL OF RIGHTS FOR DATA PRIVACY AND SECURITY

To satisfy their responsibilities regarding the provision of education to students in pre-kindergarten through grade twelve, “educational agencies” (as defined below) in the State of New York collect and maintain certain personally identifiable information from the education records of their students. As part of the Common Core Implementation Reform Act, Education Law §2-d requires that each educational agency in the State of New York must develop a Parents’ Bill of Rights for Data Privacy and Security (Parents’ Bill of Rights). The Parents’ Bill of Rights must be published on the website of each educational agency, and must be included with every contract the educational agency enters into with a “third party contractor” (as defined below) where the third party contractor receives student data, or certain protected teacher/principal data related to Annual Professi

student's privacy rights under FERPA. Complete student records are maintained by schools and school districts and not at NYSED, which is the secondary repository of data, and NYSED make amendments to school or school district records. Schools and school districts are in the best position to make corrections to students' education records.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent (including but not limited to disclosure under specified conditions to: (i) school officials within the school or school district with legitimate educational interests; (ii) officials of another school for purposes of enrollment or transfer; (iii) third party contractors providing services to, or performing functions for an educational agency; (iv) authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as NYSED; (v) organizations conducting studies for or on behalf of educational agencies) and (vi) the public where the school or school district has designated certain student data as "directory information" (described below). The attached FERPA Model Notification of Rights more fully describes the exceptions to the consent requirement under FERPA).
4. ~~When the school or school district has a policy of releasing "directory information" from student records, the parent has a right to refuse to let the school or school district designate any all of such information as directory information. Directory information, as defined in federal regulations, includes: the student's name, address, telephone number, email address, photograph, date and place of birth, major field of study, grade level, enrollment status, dates of attendance, participation in officially recognized activities and sports, weight and height of members of athletic teams, degrees, honors and awards received and the most recent educational agency or institution attended. Where disclosure without consent is otherwise authorized under FERPA, however, a parent's refusal to permit disclosure of directory information does not prevent disclosure pursuant to such separate authorization.~~

5. The right to file a complaint with the U.S. Department of Education concerning

- (f) Other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or
- (g) Information requested by a person who the educational agency or institution

- The policies will also require security measures when providing student data to parents, to ensure that only authorized individuals receive such data. A parent may be asked for information or verifications reasonably necessary to ensure that he or she is in fact the student's parent and is authorized to receive such information pursuant to law.
- (C) State and federal laws protect the confidentiality of PII, and safeguards associated with industry standards and best practices, including, but not limited to, encryption, firewalls, and password protection, must be in place when data is stored or transferred.

Education Law §2-d also specifically provides certain limitations on the collection of data by educational agencies, including, but not limited to:

- (A) A mandate that, except as otherwise specifically authorized by law, NYSED shall only collect PII relating to an educational purpose;
- (B) NYSED may only require districts to submit PII, including data on disability status and student suspensions, where such release is required by law or otherwise authorized under FERPA and/or the New York State Personal Privacy Law; and
- (C) Except as required by law or in the case of educational enrollment data, school districts shall not report to NYSED student data regarding juvenile delinquency records, criminal records, medical and health records or student biometric information.
- (D) Parents may access the NYSED Student Data Elements List, a complete list of all student data elements collected by NYSED, at <http://www.p12.nysed.gov/irs/sirs/documentation/NYSEDstudentData.xlsx>, or may obtain a copy of this list by writing to the Office of Information & Reporting Services, New York State Education Department, Room 863 EBA, 89 Washington Avenue, Albany, NY 12234; and

- Specifically, the Commissioner of Education, after consultation with the Chief Privacy Officer, will promulgate regulations establishing procedures for the submission of complaints from parents, classroom teachers or building principals, or other staff of an educational agency, making allegations of improper disclosure of student data and/or teacher or principal APPR data by a third party contractor or its officers, employees or assignees.

- When appointed, the Chief Privacy Officer of NYSED will also provide a procedure within NYSED whereby parents, students, teachers, superintendents, school board members, principals, and other persons or entities may request information pertaining to student data or teacher or principal APPR data in a timely and efficient manner.

5. Must additional elements be included in the Parents' Bill of Rights.?

Yes. For purposes of further ensuring confidentiality and security of student data, as an appendix to the Parents' Bill of Rights each contract an educational agency enters into with a third party contractor shall include the following supplemental information:

- (A) the exclusive purposes for which the student data, or teacher or principal data, will be used;
- (B) how the third party contractor will ensure that the subcontractors, persons or entities that the third party contractor will share the student data or teacher or principal data with, if any, will abide by data protection and security requirements;
- (C) when the agreement with the third party contractor expires and what happens to the student data or teacher or principal data upon expiration of the agreement;

 - a. In addition, the Chief Privacy Officer, with input from parents and other education and expert stakeholders, is required to develop additional elements of the Parents' Bill of Rights to be prescribed in Regulations of the Commissioner.

6. What protections are required to be in place if an educational agency contracts with a third party contractor to provide services, and the contract requires the disclosure of PII to the third party contractor?

Education Law §2-d provides very specific protections for contracts with "third party contractors", defined as any person or entity, other than an educational agency, that receives student data or teacher or principal data from an educational agency pursuant to a contract or other written agreement for purposes of providing services to such educational agency. The term "third party contractor" also includes an educational partnership organization that receives student and/or teacher or principal APPR data from a school district to carry out its responsibilities pursuant to Education Law §211-e, and a not-for-profit corporation or other non-profit organization, which are not themselves covered by the definition of an "educational agency."

Services of a third party contractor covered under Education Law §2-d include, but not limited to, data management or storage services, conducting studies for or on behalf of the educational agency, or audit or evaluation of publicly funded programs.

When an educational agency enters into a contract with a third party contractor, under which the third party contractor will receive student data, the contract or agreement must include a data security and privacy plan that outlines how all state, federal, and local data security and privacy contract requirements will be implemented over the life of the contract, consistent with the educational agency's policy on data security and privacy. However, the standards for an educational agency's policy on data security and privacy must be prescribed in Regulations of the Commissioner that have not yet been promulgated. A signed copy of the Parents' Bill of Rights must be included, as well as a requirement that any officers or employees of the third party contractor and its assignees who have access to student data or teacher or principal data have received or will receive training on the federal and state law governing confidentiality of such data prior to receiving access.

Each third party contractor that enters into a contract or other written agreement with an educational agency under which the contractor will receive or have access to student data or teacher or principal data shall include in the contract or other written agreement a requirement that any officers or employees of the contractor and its assignees who have access to student data or teacher or principal data have received or will receive training on the federal and state law governing confidentiality of such data prior to receiving access.

any party relating to the alleged improper disclosure of student data or teacher or principal APPR data.

Where there is a breach and unauthorized release of PII by a by a third party contractor or its assignees (e.g., a subcontractor): (i) the third party contractor must notify the educational agency of the breach in the most expedient way possible and without unreasonable delay; (ii) the educational agency must notify the parent in the most expedient way possible and without unreasonable delay; and (iii) the third party contractor may be subject to certain penalties including, but not limited to, a monetary fine; mandatory training regarding federal and state law governing the confidentiality of student data, or teacher or principal APPR data; and preclusion from accessing any student data, or teacher or principal APPR data, from an educational agency for a fixed period up to five years.

8. Data Security and Privacy Standards

Upon appointment, NYSED's Chief Privacy Officer will be required to develop, with input from experts, standards for educational agency data security and privacy policies. The Commissioner will then promulgate regulations implementing these data security and privacy standards.

9. No Private Right of Action

Please note that Education Law §2-d explicitly states that it does not create a private right of action against NYSED or any other educational agency, such as a school, school district or BOCES.
